# **15MM F/4 SUNSTAR**

**SUPER WIDE ANGLE FULL FRAME ASPH LENS**

# 4/15

Create Beautiful Sunstars from f/4 to f/22

Full-Frame Mirrorless Format

Aperture Range: f/4 to f/22

Manual Focus Operation

Double-sided aspherical element

112° field of view

Sony E Mount | Canon RF Mount | Nikon Z Mount | Fujifilm X Mount

The NiSi 15mm f/4 Sunstar Super Wide Angle Full Frame ASPH Lens combines a compact form factor with a super ultra-wide field of view making it the perfect companion for landscape, seascape, night, architecture, interior and nature applications.

The wide 112° angle of view is combined with an advanced optical design, which includes aspherical, and low dispersion elements, to achieve a well-corrected, sharp, and color-accurate image.

The lens has a manual focus design and allows working with subjects as close as 0.2m/7.87" away.

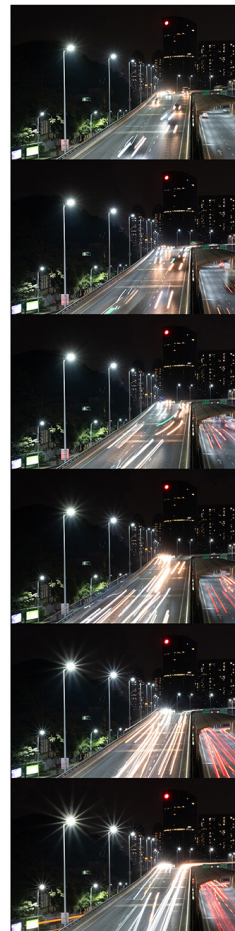

# SUNSTARS

The NiSi 15mm f/4 Sunstar Super Wide Angle Full Frame ASPH Lens features a unique aperture design that contains 10 straight blades allowing for Sunstars from f/4 to f/22 and optimal image quality throughout.

This breaks the paradigm of needing a small aperture to create a Sunstar.

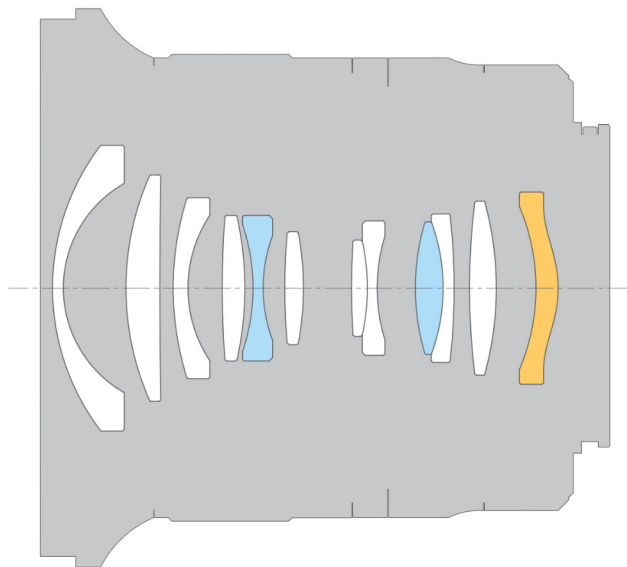

FUJI XF 10-24mm/f4

NiSi 15mm/f4

The lens elements are made of optical glass and comprise of one double-sided aspherical element and two extra-low dispersion elements.

The wide angle lens features minimal chromatic aberration, minimal distortion and vignetting. The lens utilizes anti-reflection technology in order to improve light transmittance and reduce lens flare and stray light.

NiSi's hard surface coating technology improves the toughness and waterproofing of glass elements.
